Force And Statecraft: Diplomatic Challenges Of Our Time

Synopsis

Force and Statecraft: Diplomatic Challenges of Our Time, Fifth Edition, is a concise historical discussion and insightful analysis of diplomacy. It uniquely combines history, political science, and international law in order to explore how lessons from the rich experience of the past can be brought to bear on the diplomatic challenges that we confront in our world today. This new edition combines the cumulative insights and reflections of three internationally renowned scholars--who have written more than fifty books between them--with an astute, stimulating, and up-to-date treatment of recent global developments. These include American foreign policy, the rise of China, terrorism, weapons of mass destruction in North Korea, and nuclear enrichment in Iran. Significant attention is given to the powerful impact of technology on the "digital revolution," the revolution in military affairs (RMA), drones, eDiplomacy, the "information revolution," cyber security and WikiLeaks, command and control, surveillance and reconnaissance, and social networking sites. This edition also provides a sophisticated and thought-provoking analysis of "hard" and "soft" power, the "invisibility of security," human rights, ethics, law, legitimacy, and the threat and use of force as an instrument of statecraft.
